

Ecoboiler Push Button Hands-Free Adapter

Clean, Simple, Safe

Specially designed push-button adapter to eliminate button interaction.

Adapt your existing hot water boilers with minimal disruption whilst giving your customers a safe and hygienic hot water solution.

- Does not require an Engineer or any system down-time
- Hygienic and easy-to-clean stainless steel
- The elbow-operated push button means that hands stay clear of hot water dispense
- Can be operated with elbow or cup
- Curved adapter reduces risk of cup lip touching tap
